

Per aspera ad astra – ‘Through adversity to the stars’

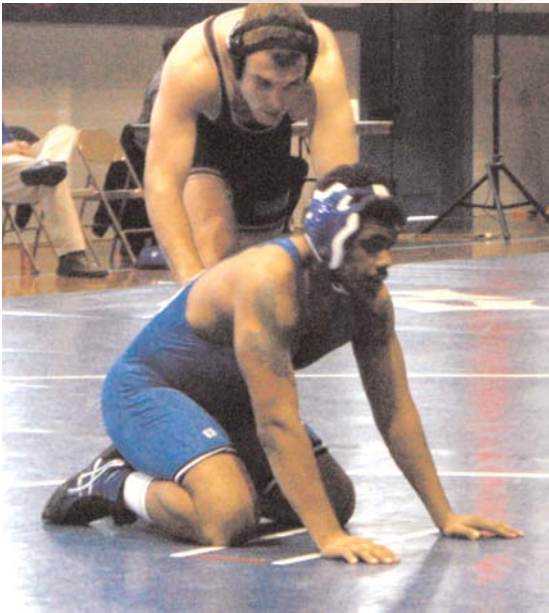

Coaches Corner

It's great to see how the team's hard work is really paying off. We're 7-2 now and just recorded Stevens first win in the Centennial Conference with a 44-6 win over Washington & Lee on January 19th. The team continued the conference win streak with a hard fought 33-12 win over McDaniel followed by wins over Muhlenberg and Ursinus on Jan 26th.

I can't begin to say how much I appreciate the hard work of our wrestlers and the support of our families, alumni and wrestling fans! We hope to see you at our last home dual on Thursday, February 7th!

Take care!

Mike Clayton
Head Coach

Sophomore 197 pounder Ernie Guiamano recorded 2 wins against W&L and McDaniel on January 19th.

Seniors MacWhinnie and Lenz have careers waiting

As we continue to look for top student/athletes to join our wrestling family at Stevens, we also recognize those who have excelled over their four years in Hoboken and now look forward to careers they have worked to prepare for.

Zak Lenz accepted an offer, on December 7, 2007, from MarketAxess in Manhattan's financial district. He chose MarketAxess over three offers from different companies. MarketAxess offers a bond trading platform that caters to the world's largest financial institutions, as well as individual investors.

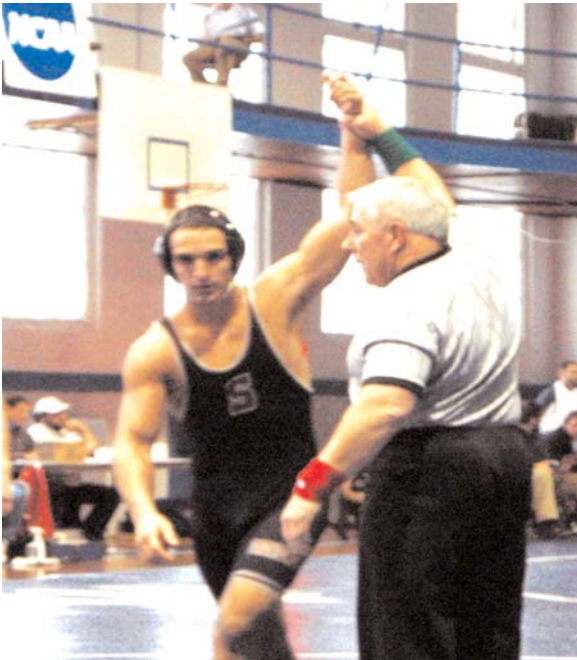

Zak will be working in a Sales and Training Rotational Program for 12 - 18 months. He is undecided whether to pursue the trading or sales as his career path after the rotational period.

He learned of the job through Stevens Career Fair and went through three rounds of interviews before being offered the job. While interviewing, Zak explained the impact wrestling has had on his academic, social and work experiences to the global sales manager for MarketAxess; Zak said, "Discussing the impact wrestling had on my development at Stevens put me over the top for the position." He is scheduled to start work on July 14 and plans to live in Hoboken after graduation.

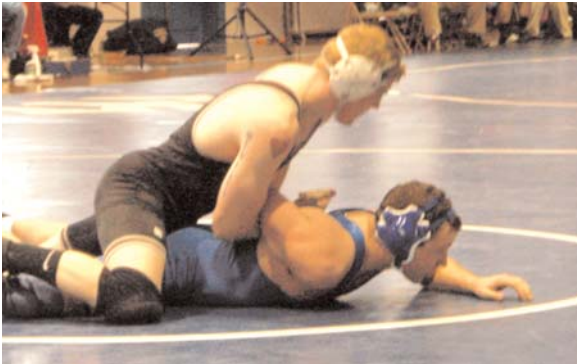

MacWhinnie accepted an offer from Lockheed Martin Systems Integration - Owego, NY in mid-October of 2007. This offer came following a successful summer internship with Lockheed Martin (the Department of Defense contracting company).

Brandon will be working as a reliability engineer in the Reliability and Maintainability Department at the Lockheed Martin facility located in Owego. MacWhinnie was introduced to the internship through a wrestling associate and said, "The work ethic that I've developed through wrestling translated to success in gaining the job after a difficult 3-month interview process!"

After graduation, Brandon will move home to Barton, NY and is slated to begin work on June 2nd.
