#### About Stevens Institute of Technology

Founded in 1870, Stevens Institute of Technology, *The Innovation University*, is one of the leading technological universities in the world dedicated to learning and research. Through its broad-based curricula, nurturing of creative inventiveness, and cross disciplinary research, the Institute is at the forefront of global challenges in engineering, science, and technology management. Partnerships and collaboration between, and among, business, industry, government and other universities contribute to the enriched environment of the Institute. A new model for technology commercialization in academe, known as *Technogenesis*®, involves external partners in launching business enterprises to create broad opportunities and shared value.

Stevens offers baccalaureate's, master's and doctoral degrees in engineering, science, and computer science, and baccalaureate degrees in the humanities and liberal arts, and in business and technology. The university has an enrollment of 2,234 undergraduate and 3,700 graduate students with over 400 faculty.

## Stevens Soccer Student Athlete Experience

*July 8 - 11, 2012  
on the campus of  
Stevens Institute of  
Technology  
Hoboken, New Jersey*

## Find Out What We're About!

Most soccer camps say that they offer the participants "something special." But do they actually give you the chance to experience what it is like to be a collegiate student-athlete? That is the idea behind the **Stevens Soccer Student Athlete Experience**. Some of the nation's top student athletes will experience what it is like to play soccer at the college level both on the field and in the classroom.

Limited to 30 participants for the week, rising high school seniors and juniors get the chance to

live the life of a college student athlete at one of the nation's premier universities ... in addition to working with one of the country's most successful women's soccer programs. Each day the participants will have introductory lab courses from three colleges within the university; engineering & sciences, business and arts &

letters. The student-athletes will get to know what it is like to be in a small class setting in addition to learning more about what goes on in these challenging fields of study.

Twice daily on-field training sessions will be conducted in an environment that mimics our highly successful soccer program. Thirty participants will train as the college team does, with all sessions exclusively conducted by the Stevens coaching staff.

Participants will have the opportunity to not only develop as players, teammates, and students during the week, but the small camp environment will also give attendees the chance to develop in numerous other ways. They will find out what it is like to relate to others both on the field and in the classroom and enjoy a real college experience.

Space is limited to just thirty participants, so start making your plans and apply today!

## HOW IS THIS CAMP DIFFERENT FROM EVERY OTHER COLLEGE SUMMER CAMP?

The week is about **experience**. All participants will be able to see firsthand what it is like to participate in a collegiate women's soccer program.

Participants will **experience the college setting** at the academic, social and athletic standpoints.

Participants will all be rising high school seniors and juniors **who show academic and athletic promise**.

Participants will go to **interactive program classes** in the Stevens colleges of engineering & science, business and arts & letters led by **actual Stevens professors**.

Participants will be trained and coached by only **Stevens athletic staff personnel**.

Participants will get the chance to interact and ask questions of their **student-athlete counselors**.

Participants will participate in **college-type training sessions** as a team every day.

Participants will **get the real college experience**, eating in the university dining hall, living in dorms and using the actual university varsity locker rooms and athletic facilities.

Participants will get the chance to **experience being a part of a team** in a true college setting.

Participants will experience **position specific training** modules for all field positions and goalkeepers.

## Meet the Stevens Staff

### Laura Williamson

**Title:** Camp Director & Assistant Coach
